COVER—Two programs of the Project Manager for Ammunition Logistics—safeload explosives safety and explosives safety improvement technology—combine to minimize explosives hazards and risks and improve munitions safety through improved packaging technology. The cover photos depict some of the safety improvements in ammunition storage, and the programs are explained in the article beginning on page 2.

Mission: *Army Logistician* (ISSN 0004-2528) is an official Department of the Army professional bulletin prepared bimonthly at the Army Logistics Management College, Fort Lee, Virginia, and published by Headquarters, U.S. Army Combined Arms Support Command, for the Department of the Army. Its mission is to publish information on Army and Defense logistics plans, programs, policies, operations, procedures, and doctrine that contributes to the professional development of military and civilian logistics personnel.

Disclaimer: Articles express views of the authors, not the Department of Defense or any of its agencies, and do not change or supersede information presented in other official Army publications. The masculine pronoun may refer to both genders.
