

Five Enabling Tenets

Impacts on Army Warfighting Challenges

Increase Operational Reach

Reduce Mission Risk

Improve Readiness

Improved efficiency, lethality, and endurance

Employ autonomous systems

Ability to exploit windows of opportunity

Decisive Action in an Evolving Future Operational Environment

Conditions

- Unprecedented amounts of network information transmission
- Emergence of innovative and disruptive technologies
- Novel use of highly-proliferated, advanced weapons systems
- Challenges deploying from a contested homeland

Implications

- Complex and diffuse environment necessitates retention of air superiority
- More intensive mobility requirements
- Further focus on dense and urban conflict areas complicates the battlefield

Goal

Operating forces executing MDO **semi-independently** in contested environments over **extended ranges** at a tempo which the enemy can neither respond to nor sustain
